Add Project Feature

The screenshot shows the 'Add Project Details' form within the Agile Project Management Dashboard. The form is set against a dark blue background with a network diagram. The form itself is a light gray card with a blue 'Back' button at the top. It contains several input fields: a dropdown for 'Product Owner' (placeholder: 'Select Product Owner'), a dropdown for 'Team Members' (placeholder: 'Select Team Members'), a text field for 'Project Name', a text area for 'Project Description', a date field for 'Start Date' (placeholder: 'dd-mm-yyyy'), and a date field for 'End Date' (placeholder: 'dd-mm-yyyy').

Edit Project Feature(Prefilled Form)

The screenshot shows the 'Edit Project Details' form within the Agile Project Management Dashboard. The form is set against a dark blue background with a network diagram. The form itself is a light gray card with a blue 'Back' button at the top. It contains several pre-filled input fields: a text field for 'Project Name' (value: 'Project Tracker System'), a text area for 'Project Description' (value: 'A system for tracking and managing project process'), a date field for 'Start Date' (value: '02-01-2025'), a date field for 'End Date' (value: '02-03-2025'), a date field for 'Revised End Date' (value: '02-04-2025'), and a dropdown for 'Status' (value: 'Active').

Sprint Calendar

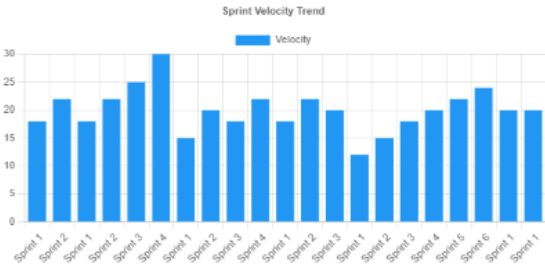

SPRINT NUMBER	START DATE	END DATE	VELOCITY
1	Jan 02, 2025	Feb 02, 2025	18
2	Feb 03, 2025	Mar 02, 2025	22

Sprint Progress

Tracks the progress of each sprint as a percentage. This helps monitor if sprints are on track to meet their goals and identify any patterns in sprint completion rates.

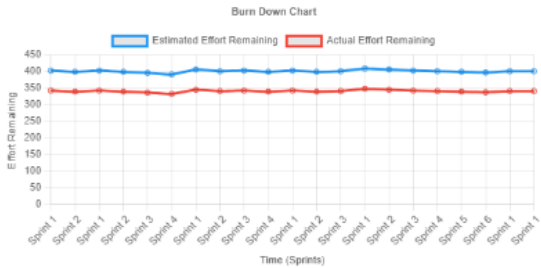

Velocity Trend

Shows the team's velocity across sprints, helping predict future sprint capacity and identify trends in team productivity over time.

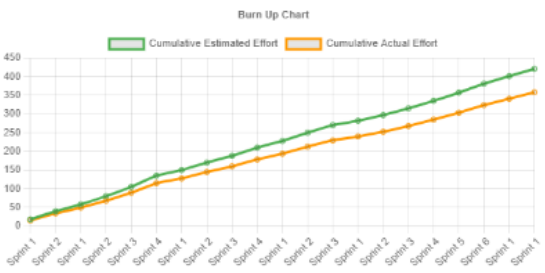

Sprint Tracking Metrics

Burn Down Chart

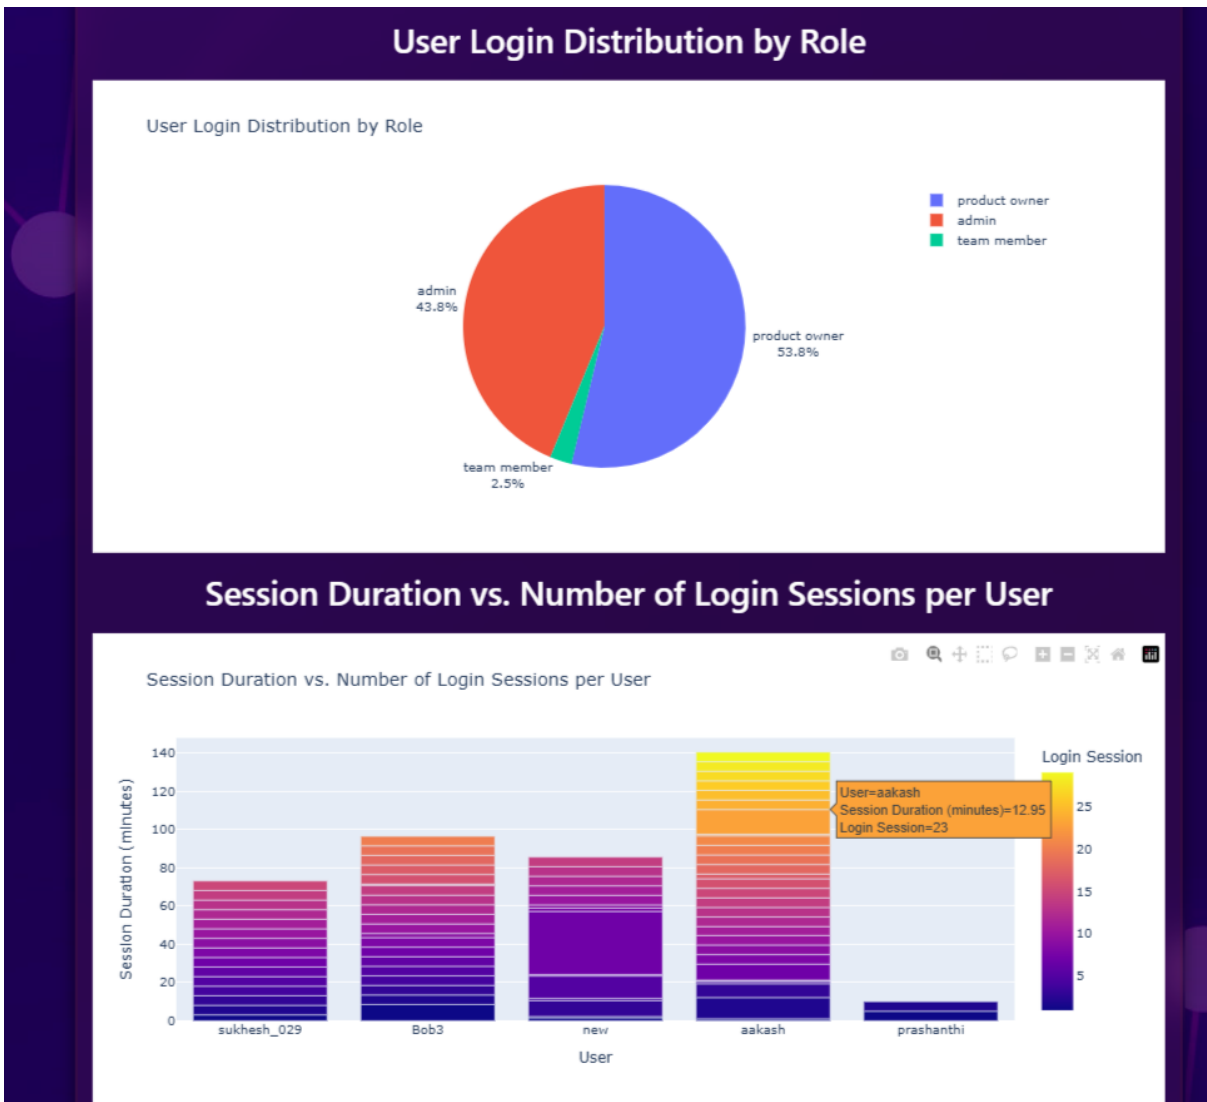

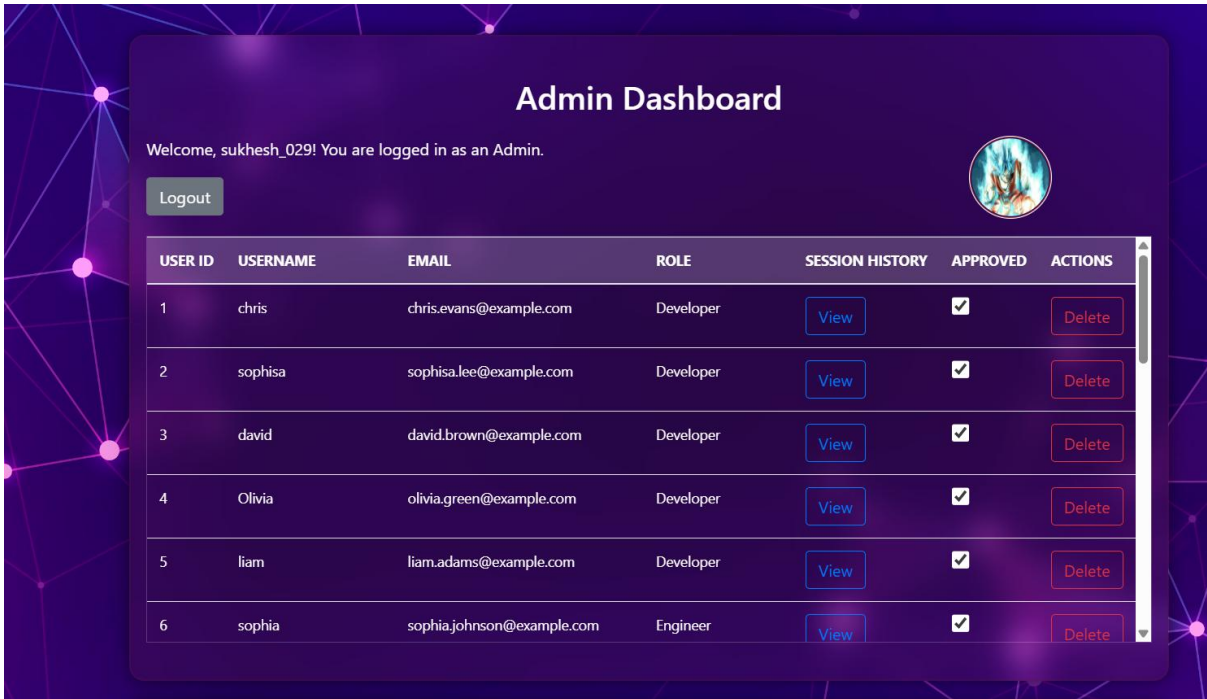

Tracks remaining work versus time in the sprint. The ideal burndown line shows expected progress, while the actual line shows real progress. Helps identify if the sprint is on track or falling behind.

Burn Up Chart

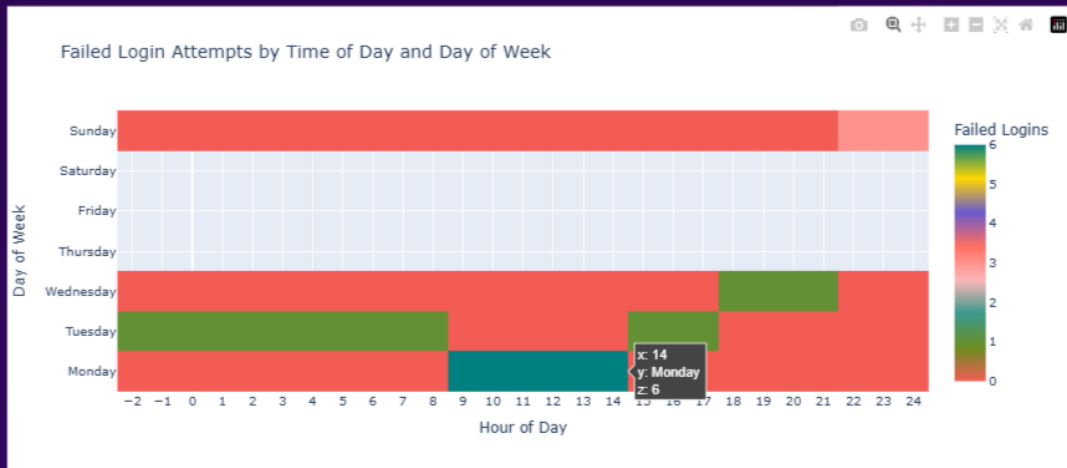

Shows the accumulation of completed work over time against the total scope. Useful for tracking overall project progress and scope changes across sprints.
